REASON Today as the morning Nurse was dispensing medication I was given 3 multicolored capsules to take. I know my medication has been changed to a Noroxic Analoge and HCZt. This was not what I expected, I asked the nurse what was it, She was unprofessional and vulgar in her language and said I didn't have the time to find out. She should be fired with some one else knows their job!

REASON I ASK the morning nurse About my medication She thought that I was receiving an Anti-depressant and wasn't sure About the other, she was agitated and using profanity. I need to know how many pills, shape and color and size that I am to have because the nurse sure doesn't know! She is obscene, profane and lacking of professionalism!!

She should be replaced.

Some one certainly could

receive the wrong medication under her care !!
